Professional Summary

.NET Developer with 1+ year of professional experience developing backend services and REST APIs using C#, ASP.NET Core and PostgreSQL. Hands-on experience with Dapper, microservices, CQRS using MediatR, JWT-based authentication and authorization, Ocelot API Gateway, FluentValidation, AutoMapper and Swagger/OpenAPI. Experienced in API development, database integration, debugging, production defect resolution and Agile/Scrum collaboration using Git and GitHub. Also experienced in Java, Spring Boot, Spring Security, React.js and MySQL through full-stack project development. Seeking .NET Developer, Backend Developer or Software Developer opportunities.

Professional Experience

Zest India IT Pvt Ltd

.NET Software Developer

Pune, India

Aug 2025 – Present

Project: CarePlanner – Enterprise Multi-Tenant Appointment Scheduling & Care Management Platform

Technologies: C#, ASP.NET Core Web API, PostgreSQL, Dapper, Microservices, CQRS, MediatR, JWT, Ocelot API Gateway, Swagger/OpenAPI

- Developed and maintained **RESTful Web APIs** using C# and ASP.NET Core for enterprise application features across multiple backend services.
- Worked on a **multi-tenant, microservices-based appointment scheduling and care management platform**, contributing across Appointment, CRM and Document services.
- Developed backend functionality using **CQRS and MediatR**, following modular architecture and separation of responsibilities.
- Implemented database access using **Dapper and PostgreSQL**, writing and debugging SQL queries for data retrieval, updates and business requirements.
- Implemented and maintained **JWT-based authentication and authorization**, including role-based access control for protected API endpoints.
- Worked with **Ocelot API Gateway** for API routing and communication between client applications and backend microservices.
- Implemented request validation and object mapping using **FluentValidation and AutoMapper** to maintain consistent API processing.
- Developed and validated APIs using **Swagger/OpenAPI and Postman**, verifying request/response contracts, edge cases and error handling.
- Diagnosed and resolved defects by tracing issues across API, business logic and database layers and validating fixes against reported scenarios.
- Contributed to modules and features involving **client contacts, authorization groups, billing rules, staff qualifications, payer services, document synchronization and appointment-related workflows**.
- Collaborated in an **Agile/Scrum development environment** using Git/GitHub, feature branches, pull requests and code reviews.

Technical Skills

Languages: C#, Java, SQL, JavaScript

Backend & APIs: .NET, ASP.NET Core, ASP.NET Core Web API, REST APIs, Dapper, Microservices, CQRS, MediatR, JWT Authentication, Ocelot API Gateway, FluentValidation, AutoMapper

Databases: PostgreSQL, MySQL, SQL, PL/SQL, Database Design, Query Writing & Optimization

Java / Full Stack: Java, Spring Boot, Spring Security, React.js

Tools & Development: Git, GitHub, GitHub Enterprise, Visual Studio, VS Code, IntelliJ IDEA, Swagger/OpenAPI, Postman

Architecture & Practices: Object-Oriented Programming, SOLID Principles, Layered Architecture, Dependency Injection, CQRS, Microservices, Exception Handling, Debugging, Code Reviews, Agile/Scrum

Projects

Eatzilla – Online Food Delivery Platform

PG-DAC Academic Project / 2024

Technologies: Java, Spring Boot, Spring Security, React.js, MySQL, REST APIs, JWT, Git/GitHub

- Developed a full-stack online food delivery application using **Spring Boot, React.js and MySQL**.
- Implemented **Spring Security with JWT authentication and role-based access control** for customer, restaurant and admin roles.
- Developed REST APIs for **user registration, menu browsing, cart management, order placement and order tracking**.
- Designed the relational database schema and implemented persistence logic using MySQL.
- Integrated React.js frontend components with Spring Boot REST APIs to provide a responsive application experience.
- Managed source code using **Git/GitHub** and followed iterative development and testing practices.

Education

PG Diploma in Advanced Computing (PG-DAC), C-DAC

Institute for Advanced Computing & Software Development (IACSD), Pune

Mar 2024 – Sept 2024

Score: 65%

Bachelor of Technology

Dr. Daulatrao Aher College of Engineering, Karad

Sept 2018 – Jun 2022

Score: 75%

Certifications

- **Core Java Certification** – Sunbeam IT Park, Hinjawadi, Pune
- **SQL (Advanced)** – HackerRank
