Professional Summary

Software Developer with professional experience building backend services and REST APIs using C#, .NET / ASP.NET Core, and SQL databases. Hands-on with Entity Framework Core, LINQ, layered architecture, dependency injection, and JWT-based authentication and authorization. Additionally experienced in Java and Spring Boot full-stack development through project work with Spring Security, REST APIs, React.js, and MySQL. Comfortable across the full delivery cycle – API design, database development, debugging, testing with Swagger/Postman, and Agile collaboration using Git and GitHub. Seeking a Backend / Software Developer role across .NET or Java technology stacks.

Professional Experience

Zest India IT Services, Pune, India
.NET Developer

Aug 2025 – Present

ProjectName: CarePlanner – Enterprise web application (C#, ASP.NET Core Web API, Entity Framework Core, SQL Server)

- Developed and enhanced RESTful Web APIs using **C#** and **ASP.NET Core**, implementing controllers, service-layer business logic, and DTOs to deliver application features against sprint requirements.
- Implemented data access with **Entity Framework Core** and **LINQ** over **SQL Server**, writing and refining queries, joins, and mappings to return accurate results with efficient database round-trips.
- Applied **layered architecture** with **dependency injection** and clear controller–service–repository separation, improving code readability, reuse, and testability across modules.
- Secured API endpoints through **authentication and authorization**, including token-based (**JWT**) access and role-based permission checks on protected routes.
- Implemented server-side model validation and centralized **exception handling** to return consistent HTTP status codes and error responses to API consumers.
- Diagnosed and resolved defects by tracing issues end to end across the API, business logic, and database layers, then verifying fixes against reported scenarios before release.
- Documented and validated APIs using **Swagger/OpenAPI** and **Postman**, confirming request/response contracts, edge cases, and error handling.
- Collaborated in an **Agile/Scrum** team using **Git** and **GitHub** for feature branching, pull requests, and code reviews, participating in sprint planning and daily stand-ups.

Technical Skills

Languages: C#, Java, SQL, JavaScript, C, C++, HTML, CSS

Backend: .NET, ASP.NET Core, ASP.NET Core Web API, REST APIs, Entity Framework Core, LINQ, Spring Boot, Spring Security, JWT Authentication

Frontend: React.js, JavaScript, HTML, CSS

Databases: SQL Server, MySQL, PL/SQL, MongoDB, Query Writing & Optimization, Database Design

Tools & Version Control: Git, GitHub, Visual Studio, VS Code, IntelliJ IDEA, Swagger/OpenAPI, Postman, Selenium

Concepts & Practices: Object-Oriented Programming (OOP), Data Structures & Algorithms, SOLID Principles, Layered Architecture, Dependency Injection, Repository Pattern, Exception Handling, Debugging, Code Reviews, Agile/Scrum

Operating Systems: Windows, Linux

Academic & Personal Projects

Eatzilla – Online Food Delivery Platform (PG-DAC Academic Project) 2024

- Developed a full-stack food delivery application with a **Java / Spring Boot** backend, **React.js** frontend, and **MySQL** database.
- Implemented **Spring Security** with **JWT** authentication and role-based access control for customer, restaurant, and admin roles.
- Built **REST APIs** for user registration, menu browsing, cart management, order placement, and order tracking.
- Designed relational schema and persistence logic in **MySQL**, using parameterized data access for secure database operations.
- Managed source code with **Git/GitHub** and followed **Agile** practices through iterative development and testing.
- Repository: github.com/74717sarang/Eatzilla

Education

PG Diploma in Advanced Computing (PG-DAC), C-DAC Mar 2024 – Sept 2024
Institute for Advanced Computing & Software Development (IACSD), Akurdi, Pune

- Score: 65%

Bachelor of Technology (Civil Engineering) Sept 2018 – Jun 2022
Dr. Daulatrao Aher College of Engineering, Karad

- Score: 75%

Certifications

- **Core Java** – Sunbeam IT Park, Hinjawadi, Pune
- **SQL (Advanced)** – HackerRank
